GENERAL INFORMATION

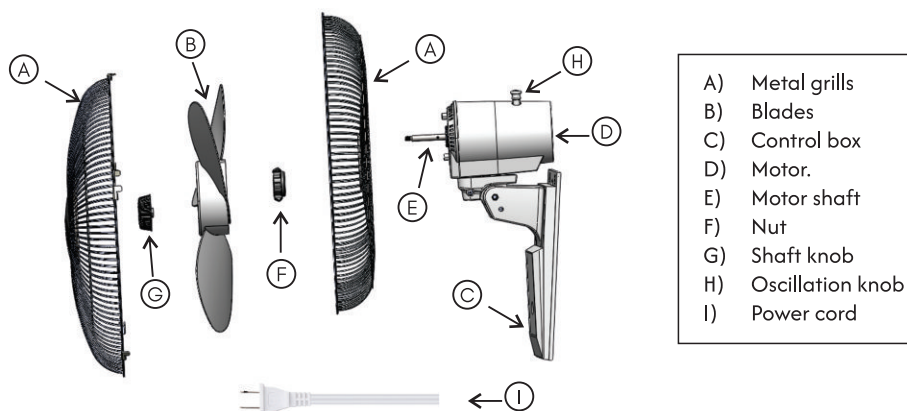

Thank you for purchasing the **SMART MBLU 1116** digital fan from **MAN**. This device is designed to provide efficient and comfortable ventilation, including remote control technology through a mobile app.

TECHNICAL SPECIFICATIONS

PARAMETER	VALUE
Model	SMART MBLU 1116
Brand	MAN
Voltage	120 V ~ 60 Hz
Power	85 W
Control	Digital panel and mobile app
Timer	1-8 hours
Material	ABS Plastic / Steel
Speed levels: 3 (low, medium, high)	

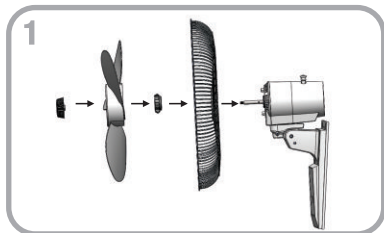

FAN COMPONENTS

The fan includes the following essential parts for proper operation:

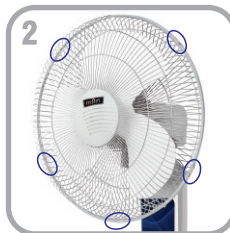

- A) Metal grills
- B) Blades
- C) Control box
- D) Motor.
- E) Motor shaft
- F) Nut
- G) Shaft knob
- H) Oscillation knob
- I) Power cord

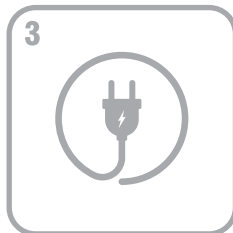

ASSEMBLY INSTRUCTIONS

Mount the front grill onto the motor by aligning the holes with the guide posts and secure it with the nut. Install the blades onto the motor shaft, ensuring they align properly. Tighten the nut (clockwise) to prevent loosening during operation.

Close the protective grill and secure all locks.

Connect the power cord to a 120 V~ / 127 V~ outlet.

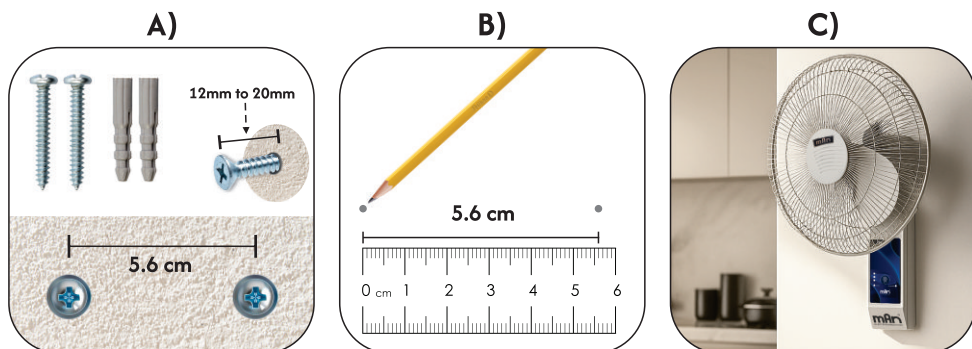

WALL MOUNTING

Note: The tools and materials required for this installation (anchors and screws) are not included. The type of anchors and screws may vary depending on the wall or surface.

Please consult qualified personnel to determine the appropriate hardware.

1. Ensure the wall is solid, vertical, and flat.
2. Ensure there is enough free space for mounting the appliance and that no objects or materials around it could come into contact with or become entangled in it.

3. You will need two 1-inch (2.54 cm) screws with a maximum thickness of 3/16 inch (5 mm) and two anchors. Screws must be spaced 5.6 cm apart horizontally. Screw head distance from wall: min 12 mm; max 20 mm. **(See item A)**
4. For concrete walls, steel anchors are recommended.
5. Place the back of the control box against the wall and mark the holes located at the top of the control box with a pencil, or use a ruler to measure and mark the distance indicated in step 3. **(See item B)**
Using a drill bit, drill at the pencil marks. The diameter and depth of the drill bit must match the size of the anchors you will be using.
6. Drill holes according to the size of the anchors.
7. Place the back of the control box in the position where the anchors were installed and make sure the power cord is not trapped. Lower the fan into place and insert the screws.
8. Now mount your MAN fan by aligning the base holes with the heads of the screws.
9. Ensure the fan is firmly mounted and ready for operation.
10. Your MAN fan is now ready to operate. **(See item C)**

BASIC OPERATION

- 1 Press the power button on the control panel to turn the fan on or off.
- 2 Adjust the airflow speed using "Speed +" or "Speed -".
- 3 Press "Osc" to activate automatic oscillation.
- 4 Use the "Timer" button to set automatic shutdown from 1 to 8 hours.
- 5 Activate Night Mode to reduce noise and airflow intensity for better rest.

DIGITAL CONTROL VIA MOBILE APP

To begin, download the application by scanning the displayed QR code. You only need to use your phone's camera or a QR code reader app to access the download link directly.

PLAY STORE

APP STORE

Requirements

Make sure you have a smartphone with Android 8.0 or iOS 13 or later.

You must also be connected to a 2.4 GHz WiFi network to ensure proper app functionality.

Pairing

1. Turn on the fan.
2. Press the "POWER" button for 1 second until the icon blinks.
3. Open the MAN Control app and create an account if needed.
4. Select "Add Device" → "Fan".
5. Follow on-screen steps to pair via Bluetooth.

App Features

Remote ON/OFF

Speed control

Custom timer

Weekly scheduling

Oscillation control

Energy-saving mode

APP SECURITY

The application uses data encryption, which protects your personal information at all times.

Communication between your device and the app is carried out through secure HTTPS protocols, ensuring a reliable connection.

Additionally, the app complies with the Federal Law on the Protection of Personal Data, providing users with greater peace of mind and legal compliance.

MAINTENANCE & CLEANING

1. Unplug the power cord before cleaning the unit. To remove the front grill, pull the Safety Band downward (if necessary, use a flat screwdriver to pry between the Band and the Locks) until it is released, then slide it upward to free the fixed Lock. To remove the Blades, loosen the Knob by turning it in the "remove" direction and take the Blades off. Remove the rear Grill by unscrewing the Nut. Clean the Grills and Blades with a cloth dampened with mild soap. Do not use abrasive pads that may damage the unit's finish. To reassemble, follow the assembly instructions on the first page. **(See item A)**
2. Never use solvents such as alcohol, gasoline, or aerosol products, as they can damage the fan's components. **(See item B)**
3. There is no need to add oil to the motor. It features a permanent lubrication system.
4. For any fan repairs, please contact an Authorized Service Center to receive specialized technical assistance.

SAFETY PRECAUTIONS

1. Indoor use only.
2. Never immerse the fan in water or liquids.
3. Do not insert objects into the grills.
4. Avoid contact with moving blades.
5. Keep children supervised.
6. The appliance should not be used by persons (including children) with reduced physical, sensory, or mental capabilities, or by those lacking experience or knowledge, unless they are properly supervised or instructed.
7. Do not use the appliance near hot objects.
8. Do not pull the plug from the power cord when unplugging it.
9. Do not use a damaged power cord.

10. Avoid tripping over the power cord.
11. Do not use near gasoline, paint, or flammable materials.
12. Use only authorized service centers.
13. If the power cord is damaged, it must be replaced by the manufacturer, its service agent, or qualified personnel to avoid any risk.
14. Place the fan on a flat surface.
15. Disconnect before cleaning.
16. Do not use the fan without the blade grills in place.
17. Keep the fan away from curtains to prevent damage.

LIMITED WARRANTY

WARRANTY POLICY

Industrias Man de México, S.A. de C.V. guarantees this product for a period of **one year from the date of for manufacturing and operational defects**. This warranty includes free repair or replacement of the product, as well as necessary parts, labor, and diagnostics.

The product may be repaired by the manufacturer during and after the warranty period.

Warranty procedure:

To claim the warranty, **completely free** of charge, customers have two options:

1. **Go directly to the point of sale**, presenting the product along with the **invoice, receipt, or proof of purchase**.

2. **Request service online by visiting:**

<https://manindustries.us/policies/terms-of-service>

There, you must complete the **warranty form**. One of our technicians will assist you shortly.

SCOPE OF WARRANTY

Industrias Man de México, S.A. de C.V. undertakes to replace any defective part or component free of charge to the consumer. This warranty also covers transportation costs associated with service delivery, provided that service is provided within our authorized service network.

WARRANTY EXCLUSIONS

This warranty will not be valid in the following cases:

- If the product was used under conditions other than those specified as normal.
- If the instructions in the included user manual were not followed.
- If the product was altered or repaired by persons not authorized by the manufacturer, importer, or responsible distributor.

This warranty is valid only with proof of purchase.
